

WhatsApp Bulk Sender - Business & Quota Specification

Market Pricing Analysis, Quota Logic & Owner Renewal Architecture

1. Market Pricing Comparison (WAPI, WhatsApp Rocket, Incret, Infra Bulk)

In the bulk messaging industry, pricing models are structured across three primary tiers based on message volume and feature requirements:

Model Type	Text Message Price	Text + Media / Attachment Price	Description & Features
Per-Message Credits	■0.15 – ■0.20 / msg	■0.35 – ■0.50 / msg	Deducts 1 credit for text, 2 credits for media/PDF. Pay-as-you-go.
Monthly Subscription	■999 / month (2,000 msgs)	■1,499 / month (2,000 text + 500 media)	Fixed monthly message caps. Best for regular business campaigns.
Annual License Key	■2,999 / year	■3,999 / year (Includes PDF sender)	Flat rate license for 1 year per laptop. Periodic quota checks.

Why Media & PDF Attachments Cost More: Media attachments process base64 payloads, consume higher system RAM, require higher network bandwidth, and take 2x to 3x longer to dispatch compared to plain text messages.

2. Quota Check Logic & 'Quota Over' Popup System

Step 1: Pre-Send Inspection: When the user clicks 'Start Bulk Sending', the extension verifies remaining quota in local storage or remote backend.

Step 2: Type Verification: If an image/video/PDF is attached, 1 *Attachment Credit* is checked. If plain text, 1 *Text Credit* is checked.

Step 3: Quota Over Intercept: If quota reaches 0 during a campaign, sending pauses immediately and triggers the **Quota Over Modal Popup**.

■■ QUOTA EXHAUSTED / LIMIT REACHED

You have reached your limit of Text / Attachment messages.

- Text Quota Remaining: 0
- Attachment Quota Remaining: 0

Please make payment to renew your plan and unlock bulk sending.

[■ Pay & Renew Plan]

3. Payment & Owner Renewal Workflow (5-Step Loop)

- 1. User Action:** User clicks '*Pay & Renew Plan*' in popup. A payment dialog opens showing your UPI QR Code / GPay/PhonePe / Payment Link.
- 2. Submission:** User completes payment and submits Phone Number & Transaction Reference ID.
- 3. Owner Alert:** You (the owner) instantly receive an alert on Telegram / Email / Admin Dashboard with User Phone & Transaction ID.
- 4. Owner Approval:** You verify payment in your bank app, log into your Admin Portal or Master Sheet, enter user phone number, and click '**Approve & Add Quota**'.
- 5. Extension Unlock:** The user's extension automatically fetches the updated balance and unlocks sending instantly!
